---

Get ready to bumble, with some sugar alternatives to that plain old maltose everyone has been brewing with.

Mead is a wide and diverse beverage with many variables; sweet vs dry, carbonated vs still, fruit, herbs and other adjuncts and much more. We, and by we I mean mostly Jeff, will educate you on the proper way to make mead and its many pitfalls.

In addition, we will talk about cider, which is somewhat similar to mead (sweet vs dry, carbonated vs still) but which presents challenges all its own.

No hops! No boiling! (Or is there??)  
Come and Find Out!

## **September Meeting @ Transplants!**

Our September meeting will be at Transplants Brewery  
(40242 La Quinta Ln Unit 101, Palmdale, CA 93551)

This is far away, BUT, we are going to be organizing a carpool and discussing the logistics at this August meeting.

So please attend if you can to be kept in the loop.

**Thank you for being a member and please
